EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Page 1 of the specification, the reference to "U.S. Provisional Application 60/118,377 filed January 28, 1999" has been changed to --U.S. Provisional Application 60/118,377 filed January 29, 1999--.

Substance of the Interview dated 09 March 2004

Mr. Johnson was informed that the after final response dated 19 Feb. 2004 was non-compliant because claims 1-26 were not listed with the other claims. The Examiner and Mr. Johnson also discussed potential claim language to clearly define independent claim 39 over the reference of Genese et al. It was agreed to change "fixed" to "permanently fixed". Mr. Johnson will file a second after final response that addresses the non-compliance issues and includes the changes to claim 39.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

While the closest prior art of record (Genese et al.(US 3,712,535)) discloses a centrifuge device that includes a rotor for supporting at least one reaction vessel at a fixed angle tilted with

Art Unit: 1744

respect to said axis of rotation so that an open end of the reaction vessel is pointed away from the axis of rotation and a waste reservoir connected to the centrifuge to hold liquids expelled from the reaction vessels, the prior art of record does not teach or fairly suggest a rotor that permanently fixes the reaction vessel at the claimed tilted position. The position of the vessel of the reference of Genese et al. can be changed between at least two fixed positions. Permanently fixing the position of the vessel in the outward tilt position would destroy or change the principle of operation of the device of the Genese et al. reference.

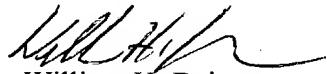

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Beisner whose telephone number is 571-272-1269. The examiner can normally be reached on Tues. to Fri. and alt. Mon. from 6:15am to 3:45pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert J. Warden can be reached on 571-272-1281. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
